Location: Anantapur

LinkedIn url: www.linkedin.com/in/naveenattendancemanagementsystem

PROFESSIONAL SUMMARY:

Enthusiastic and detail-oriented Python Full Stack Developer with a strong background in problem solving, ticketing systems, and end-user support. Proficient in Python, SQL, and Web development with a focus on quality delivery and continuous improvement culture. Experienced in developing real-time solutions, managing customer satisfaction, and collaborating in troubleshooting tasks. Seeking opportunities to leverage my skills in software development, infrastructure services, and service management.

SKILLS:

Programming Languages: Python

Web Technologies: HTML, CSS, JavaScript

Databases: MySQL, Firebase

Version Control: Git, GitHub

Soft Skills: Problem-solving, Adaptability, Team Collaboration, Trouble shooting, End User Support, Service Management, Customer Satisfaction

TECHNICAL SUMMARY:

SQL:

- Proficient in writing complex SQL queries, joins, subqueries, and optimizing database performance.
- Strong understanding of RDBMS concepts and skilled in DDL, DML, and DQL operations.
- Skilled in writing SELECT statements to extract meaningful insights from large datasets

Python:

- Experienced with object-oriented programming (OOP) concepts, including Abstraction, Encapsulation, Polymorphism, and Inheritance.
- Developed Python applications leveraging libraries such as TensorFlow and OpenCV.

Web Technologies:

- Proficient in creating responsive web pages using HTML, CSS, JS.
- Skilled in using AI-powered tools to generate creative, visually appealing web designs that align with modern trends.
- Experienced in integrating AI-generated designs into development workflows, enhancing both the visual and functional aspects of web applications

EDUCATION:

NRI INSTITUTE OF TECHNOLOGY

Information Technology (7.5/10)

-Guntur

2020-2024

SRI CHAITANYA J.R COLLEGE

Intermediate (8.5/10)

-Kurnool

2018-2020

SRI BALAJI VN HIGH SCHOOL

Schooling (10/10)

-Anantapur

2018

PROJECTS:

Attendance Management:

- Collaborated with a team to develop a web application using SQL for efficient student attendance management.
- Designed and managed the database to track and update student attendance in real-time, ensuring quality delivery and problem solving

Object detection using python:

- Developed and implemented an object detection system using Python, capable of identifying and classifying objects in real-time
- Fine-tuned pre-trained machine learning models to improve detection accuracy for specific use cases, enhancing system performance and demonstrating strong analytical problem solving

Chat Application:

- Developed a real-time chat application using Flutter Flow, integrating Firebase for seamless user communication without manual coding
- Leveraged AI and Firebase within Flutter Flow to build a fully functional chat application with collaborative work and AI technologies to ensure effective communication between users

INTERNSHIPS

Cyber security

- *Supraja Technologies, Vijayawada*

- Gained knowledge in troubleshooting and diagnosing cybersecurity issues, applying critical thinking in resolving system vulnerabilities.

Python programming

- *Naresh IT Technologies, Guntur*

- Acquired skills in Python programming, focusing on problem-solving and infrastructure services.

CERTIFICATIONS

- Completed Python Full Stack Certification from AICTE.
- Earned Java Certification from Kodnest.
- Certified in Cybersecurity analyst from Supraja Technologies.
- Received Mentor Certification for guiding juniors on project development, awarded by NRI Institute of Technology.

INTRESTS

- Photography
- Exploring AI chat bots
- Solving Rubix's Cube

DECLARATION

I hereby declare that the information is true to the best of my knowledge and belief.
